anchoring
M10 bolts

RAL7006

Regulations and certifications:

Silla de diseño, compatible con el resto de elementos de la colección ARKO para configurar un sistema de mobiliario modular que permite personalizar el espacio. Estructura de acero (tratado con el proceso Ferrus el protector de triple capa para el hierro, que garantiza una óptima resistencia a la corrosión) acabado RAL 7006 y madera tropical tratada con aceite protector.

Materials & Finishes:

Steel with FERRUS treatment: an iron protection process that ensures optimal corrosion resistance. The Ferrus treatment consists of three layers applied after cleaning all dirt and impurities using shot blasting, and it involves an electrolytic bath followed by an epoxy primer and a final coating of polyester powder paint.

Tropical wood treated with LIGNUS: Wood from responsible forestry. Density greater than 930kg/m³, at 12% humidity, treated with a triple-layer LIGNUS coating, fungicide, insecticide, and water-repellent that provides protection against moisture penetration. Final finish with a layer of natural pigment in a satin finish, which provides additional protection against UV rays, the main cause of deterioration in this type of material.
